1958.
b. [REDACTED] formerly St/FR, transferred to I/QM, 30 June.
25X1A9a c. [REDACTED] GS-3, was transferred from temporary duty
in I/MI to duty in I/ME, 16 June, replacing [REDACTED] 25X1A9a
transferred to St/I.

5. Plans

25X1A9a

- a. [REDACTED] (I/AR) will attend a training course in
Forecasting and Scheduling, in connection with aircraft
production, at [REDACTED] 7-18 July. 25X1A5a1
b. Recommendations for readjustment of the schedule of Branch
initiated research in I/EE are being prepared, necessitated
by expenditure of two man-months of analyst time in support
of COCOM list review.
c. On the invitation, Chief, Electronics Division, OSI, members
of I/EE participated in meetings of the Ad Hoc Tripartite
Electronics Intelligence Conference Subcommittee (SEC) to
make plans for the theme and agenda of the next regular
Tripartite Electronics Conference.

6. Problems

Response to recent advertisement of professional vacancies
in I/AR, I/QM, I/ME, and I/PE has been disappointing. Advertis-
ment of GS-13 slots in I/AR and I/ME produced no applications
whatsoever, as was the case for a GS-12 vacancy in I/PE.
Applications received for four I/QM vacancies, from personnel
outside ORR only, have been disappointing in number and
appropriateness of background and experience.

7. Recommendations

Separate recommendation has been submitted for establishment
of regular tripartite electronics intelligence conferences, in
addition to the currently scheduled "Joint [REDACTED] Electronics
